

7.08 - DATE AS OF WHICH ELIGIBILITY IS DETERMINED. In determining whether a candidate possesses the announced requirements of education or number of years of experience or age or licensure or permanent Civil Service status or service in a department, the date as of which eligibility is determined shall be the thirtieth (30) day after the last date for filing applications for that examination unless the Director determines that a later date is more appropriate in order to anticipate eligibility and specifies such later date in the announcement of the examination. For a continuous examination the eligibility date shall be the date on which the application is filed.

When the later date is later than the date on which the eligible list is established, a competitor passing the examination shall have their name placed on the eligible list but shall not be appointed until and unless they have met all eligibility requirements on or before such later date notwithstanding all provisions of 11.035. Documentation must be submitted that the candidate meets all requirements.
